Professional Summary

Computer Science undergraduate with hands-on experience in web development and IoT-based systems. Proficient in Python, JavaScript, and modern web technologies including React.js and Node.js. Strong problem-solving skills with experience in building real-world projects such as asset tracking systems, smart safety devices, and automation solutions. Seeking internship or entry-level opportunities in software development.

Technical Skills

- Programming Languages: Python, JavaScript, Java, C++
- Web Technologies: HTML, CSS, React.js, Node.js, Bootstrap
- Database: MySQL
- IoT Technologies: Arduino, ESP32, IoT Security
- Tools: Git, AWS (Cloud Hosting), SEO
- Design Tools: Adobe Photoshop, Adobe Illustrator

Projects:-

ZenTracker – Goals Tracking System

- Developed a real-time asset tracking system .
- Implemented monitoring features to improve tracking efficiency.

Smart Helmet – IoT Safety System

- Designed and developed an IoT-based helmet for rider safety monitoring.
- Integrated sensors for real-time data collection.
- Achieved 1st place in college-level science exhibition.

Water Management System

- Built a system to monitor and optimize municipal water usage.
- Focused on efficient resource management and data tracking.

AutoPark – Smart Parking System

- Developed a prototype for automated parking management.
- Improved parking efficiency through system-based allocation.

Website Link Blocker

- Created a web control system to block specific websites.
- Enhanced productivity by restricting unwanted access.

EDUCATION

Bachelor of Computer Science (Major)- Web-App Development (Minor)
S.P.K College, Sawantwadi (Autonomous)- 2024-*Present*

ACHIEVEMENTS

- Winner – Smart Helmet Project, College Internal Science Exhibition
- 2nd Place – Web Development Competition, SRM College

ADDITIONAL INFORMATION

- Areas of Interest: Web Development, IoT, UI/UX Design, Data Analysis
- Availability: Open to internships, freelance, and entry-level roles
